ALT

CONSTRUCT
LTD

THE FINISH IS EVERYTHING.

High-end bathroom installations, precision
tiling and considered craftsmanship.

SELECTED WORKS / SHOWROOM INTRODUCTION

Beautiful rooms. Serious craftsmanship.

ALT Construct LTD specialises in complete high-end bathroom installations across London - from careful strip-out, plumbing and waterproofing to precision tiling, luxury sanitaryware fitting and the final handover.

For showroom teams and interior designers, we offer a technically minded installation partner who understands that the standard of fitting must match the standard of the specification.

One partner. Every detail.

01

PLUMBING

First fix, concealed systems, showers and brassware.

02

WET ROOMS

Substrate preparation, tanking and drainage coordination.

03

TILING

Large-format porcelain, mitred edges, niches and detailing.

04

SANITARYWARE

Basins, WC frames, baths, vanities and second fix.

05

FINISHING

Grout lines, silicone joints, lighting details and accessories.

06

PROTECTION

Protected access routes, careful handling and clean handover.

03 / SELECTED INSTALLATION

01

The complete bathroom.

Freestanding bath. Marble-effect porcelain. Pendant lighting. Integrated illuminated details.

SELECTED COMPLETED WORK

A considered composition.

01 Freestanding bath

Recessed lit shelving and marble-effect surfaces

02 Brassware detailing

Wall-mounted fitting in marble-effect tiling

03 Spatial continuity

Long sightline towards garden glazing

A wet room is a system, not just a finish.

Under the tiles: correct substrates, managed falls, waterproofing, drainage and a well-planned installation sequence.

SHOWN: STONE-EFFECT SHOWER AREA
WITH BUILT-IN TILED BENCH

Built properly. Finished precisely.

01 Walk-in shower

Illuminated recess, screen and shower controls

02 Shower fitting

Overhead shower and hand shower

03 Vanity junction

Stone-effect finish with recessed niche

The quality is in the edges.

45° MITRE CUTS

Refined external corners, carefully measured porcelain layouts, consistent joints and clean transitions.

Detail-led finishing extends to niches, grouting, silicone and alignment around premium fittings.

Quiet details. Strong impression.

Illuminated wall recess and coordinated stone-effect surfaces

Tiling around a floating vanity

Feature wall and lit niches

06 / PREMIUM SANITARYWARE

Luxury should look effortless.

Behind each clean finish is precise first- and second-fix work: concealed mixers, wall-hung WC frames, basins, baths, vanity units and premium brassware.

PRODUCT EXPERIENCE

Hands-on installation experience with products from leading manufacturers, including Hansgrohe and Geberit.

Manufacturers are referenced as product experience, not as an endorsement or authorised partnership.

SHOWN: TWIN COUNTERTOP BASINS / ILLUMINATED VANITY

Different spaces. One standard.

Statement vanity

Fluted feature wall and backlit round mirror

Shower and bathroom

Glazed shower screen, basin and WC

Contrast finishes

Dark feature tiles and wall-hung WC

The craft behind the tile.

The most important decisions are often hidden when the room is complete: correctly planned first fix, concealed fitting positions, thoughtful drainage and reliable preparation.

Selected technical photographs show the work behind the finishes, from exposed pipework to concealed shower fittings and linear drainage.

EXPOSED COPPER PIPEWORK

CONCEALED SHOWER FITTING
& LINEAR DRAIN DETAIL

Respect the home. Protect the work.

The experience of installation matters as much as the finished result. We plan site protection into the job from the outset.

01 PROTECT

Floors, thresholds, access routes and adjacent finishes.

02 CONTAIN

Dust-conscious working and orderly material storage.

03 HANDLE

Careful delivery and handling of porcelain and sanitaryware.

04 HAND OVER

Final checks, clean-down and respectful completion.

Your showroom sets the vision. We deliver the fitting.

A dependable installation partner is part of the client experience. We work with drawings, product specifications and on-site practicalities to help the completed bathroom reflect the original design intent.

WHAT YOU CAN EXPECT

Clear technical communication / Careful coordination / Premium fitting standards / Respectful site conduct

A complete, considered service.

01

PROTECT

Surface and access-route protection

02

PREPARE

Strip-out, substrates and setting out

03

FIRST FIX

Supply, waste and fitting positions

04

WATERPROOF

Wet-room preparation and tanking

05

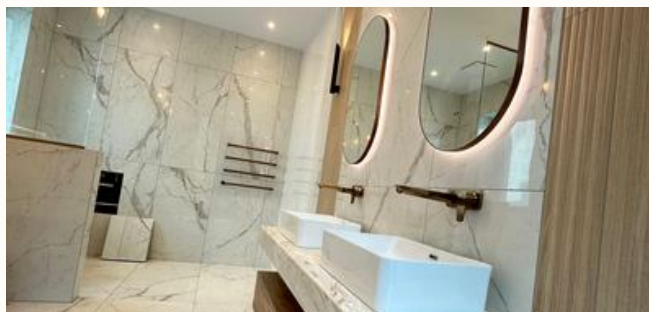

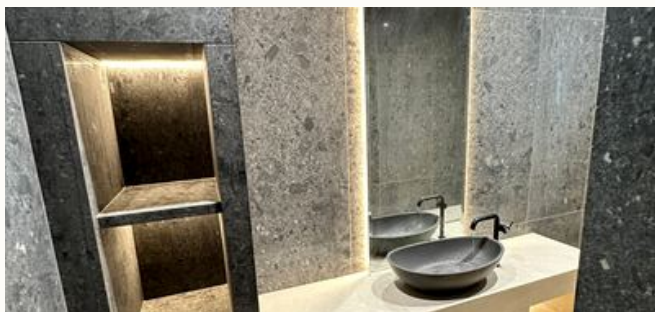

FINISH

Porcelain, sanitaryware, final detailing

06

HAND OVER

Final checks, cleaning and presentation

ALT CONSTRUCT LTD / LONDON

Let the details start a conversation.

If your showroom or design practice is looking for a specialist bathroom installation partner, we would welcome a conversation.
